In Art Class, children use a variety of mediums to create unique masterpieces. Each grade learns a variety of techniques appropriate for their age to enable the child to express themselves through art.

### Second Grade

- Color Theory – primary and secondary colors
- Art Vocabulary
- Sketching and Drawing Skills
- Ceramics
- Wax Resistance

**Spanish-** In all of our classes we want to create an atmosphere of learning and understanding basic Spanish to be built upon as the years go on. We desire to see the children enjoy learning about another culture and adding to their education during the early years and be prepared for advancing in that language, if they desire, in Jr. High and High School. We will have workbooks, flash cards, songs, puppets, coloring and games as we journey along in this learning adventure.

The goal and outcome for Second Grade Spanish is for them to know and have an understanding of basic vocabulary, numbers 1- 50+ & How to count in 10's in Spanish, greetings, family names, colors, Objects , shapes, animals, fruit, sports names ( basketball, baseball etc ) . We will have them write out short sentences and begin to understand the alphabet better. We will continue in Step one and go into Step 2 if we finish 1.
